

Appendix A – Room Type Code Listing

The room type is the classification of a room that designates the primary purpose for the room. A link to the THECB room type definitions that these codes are derived from is provided in the WORQSpace Help. The THECB code is the first three digits of the code. The last digit is used to break out the THECB code into more detail when needed for the UT classification.

Room Type Code	Room Type	Room Type Code	Room Type
** designates rooms that require capacity in WORQSpace
