3 Aspects of Leasing	47
Types of Private Ownership	48
Fee Simple Landowner	48
Mineral Estate and Surface Owners	49
Royalty Interest Holder	49
The Lease and the Law	50
The Language of Leasing	50
The First Leases	50
Court Rulings on Oil Migration	50
Court Decisions on Mineral Leases	51
Government Regulations	52

Preparations for Leasing Privately Owned Lands	53	Circulating System	99
Determining Ownership	53	Power System	103
Clearing the Title	54	Routine Drilling Operations	105
Validating the Owner's Capacity to Contract	55	Preparing the Drill Site	105
Negotiating the Lease	56	Rigging Up	106
Provisions of the Lease	58	Drilling the Surface Hole (Spudding In)	107
Dates	59	Tripping Out	108
Granting Clause	59	Running Surface Casing	111
Habendum Clause	60	Cementing the Casing	112
Royalty Clauses	61	Tripping In	114
Pooling and Unitization Clause	62	Controlling Formation Pressure	115
Drilling, Delay Rental, and Related Clauses	64	Running and Cementing Intermediate	
Assignment Clause	65	Casing	118
Damage Clause	66	Drilling to Final Depth	118
Force Majeure Clause	66	Evaluating Formations	118
Warranty and Proportionate Reduction		Setting Production Casing	120
Clauses	66	Offshore Drilling	121
Special Provisions and Amendments	66	History of Offshore Drilling	121
Lease-Terminating Provisions	67	Offshore Drilling Today	123
Execution of the Lease	68	Mobile Offshore Drilling Units	123
Signing the Lease	68	Offshore Drilling Platforms	130
Acknowledging the Lease	68	Directional Drilling	134
Recording the Executed Lease	68	Uses	134
Transactions After Leasing	69	Tools and Techniques	136
Division Orders	69	Fishing	138
Support Agreements	69	Freeing Stuck Pipe	138
Acreage Acquisition Agreements	70	Retrieving Twisted-Off Pipe	141
Joint Operating Agreements	70	Fishing for Junk	142
Joint Ventures	70	Air or Gas Drilling	143
Overriding Royalty Agreements	70		
Leasing Public Lands	71		
State Ownership	71	5 Production	145
Leasing State Lands	71	Early Production Methods	145
Federal Ownership	72	Completion	145
Leasing Federal Onshore Lands	72	Pumping	146
Leasing Federal Offshore Tracts	74	Storage and Handling	146
Ownership in Canada	74	Well Completion	147
4 Drilling Operations	75	Production Casing and Liners	147
History of Drilling for Oil	75	Open-Hole, Perforated, and Wire-Wrapped	
Drake's Well	75	Screen Completions	148
Cable-Tool Drilling	78	Tubing and Packers	150
Rotary Drilling	79	Wellhead	152
Drilling Today	81	Starting the Flow	153
Drilling Contracts	82	Completing Gas Wells	154
The Drilling Contractor	82	Reservoir Drive Mechanisms	155
Bid Proposals and Specifications	82	Water Drive	155
Footage Contract	83	Gas Drives	156
Daywork Contract	83	Combination Drives	156
Turnkey Contract	84	Gravity Drainage	157
Combination Agreements	84	Artificial Lift	158
Rotary Drilling Systems	85	Beam Pumping	158
Hoisting System	86	Electric Submersible Pumps	158
Rotating System	92	Subsurface Hydraulic Pumps	159
		Gas Lift	160

Well Testing	161	Railway Systems	220
Potential Test	161	Petroleum Products Transported by Rail	220
Bottomhole Pressure Test	161	Government Regulations	220
Productivity Test	161	Tank Car Design and Manufacture	221
