

Table of Contents

Part I: Causes of a Kick	1
INTRODUCTION	1
PRESSURE CHARACTERISTICS	2
Hydrostatic Pressure	4
Formation Pressure	6
Fluid Flow	12
CONTRIBUTING CAUSES OF KICKS	13
Porous and Permeable Rock	13
Drilling Mud	14
SPECIFIC CAUSES OF KICKS	16
Failure to Keep Hole Full	16
Swabbing	17
Surging	18
Abnormal Pressure	18
Part II: Recognizing a Kick	21
WARNINGS THAT A KICK COULD OCCUR WHILE DRILLING	24
Change in Drilling Rate	24
Increase in Rotary Torque	25
Change in Cutting Size and Amount	25
Gas-Cut Mud	26
Connection and Trip Gas	27
Change in Mud Characteristics	27
WARNINGS THAT A KICK HAS OCCURRED	28
Increase in Flow Rate	28
Increase in Mud Tank Volume	31
Decrease in Circulating Pressure and Increase in Pump Speed	32
Well Flows with Pumps Off	32
WARNINGS WHEN TRIPPING	35
Hole Fails to Take Right Amount of Mud	36
Continual Flow from Mud Return Line	38
REVIEW	38
Part III: Killing a Kick	39
AN UNCONTROLLED KICK	41
SHUTTING IN WHEN DRILLING	42
SHUTTING IN WHEN TRIPPING	43
CIRCULATING A KICK OUT	44
SHUT-IN CONSIDERATIONS	45
CIRCULATING CONSIDERATIONS	48
SHUT-IN DRILL PIPE PRESSURE (SIDPP)	51

Finding Kick Pressure	52
Kill Rate	55
Kill-Rate Pressure	56
Initial Circulating Pressure	57
THE DRILLER'S METHOD	58
THE WAIT-AND-WEIGHT METHOD	65
THE CONCURRENT METHOD	74
Part IV: Well-Control Equipment	75
BLOWOUT PREVENTER STACKS	75
Annular Preventers	76
Ram Preventers	77
Accumulators	80
ADDITIONAL BOP EQUIPMENT	81
Driller's Control Panel	81
Kelly Cocks	81
Drill Stem Safety and Gray Valves	81
Inside BOPs	82
CHOKES AND CHOKES	84
MUD-GAS SEPARATORS	85
MUD SYSTEM EQUIPMENT	86
Flow Indicators	86
Pit Level Indicators	86
Mud Volume Measuring Devices	87
Gas Detectors	89
Degassers	89
Glossary	91
Review Questions	97
Answers	107
