

CALL FOR EXPERTS!

Share your knowledge to help others.

Publishing/instruction opportunities - your expertise is needed to assist the oil and gas industry.

HELP DEVELOP PUBLICATIONS

- Review content to determine updates to existing books
- Write material for existing books as well as new titles
- Peer-review books in development before printing

BECOME A CLASSROOM INSTRUCTOR

- Provide engaging classroom and hands-on instruction
- Contribute your unique skills and specialized expertise to assist students
- Exercise your desire to teach and help others learn

PETEX HAS RESOURCES TO SUPPORT YOU:

- Expert staff editors to guide you and help you refine your material
- Writing assistance, if needed
- Assistance with preparing classroom presentations, based on outlines/learning objectives
- Design resources to create or re-create graphics
- Searches to locate illustrations / photos and obtain third-party permission

WHAT'S IN IT FOR YOU?

- Exposure for you/your company with printed acknowledgment of your help
- A chance to actively support your industry
- Help raise the level of technical expertise among today's industry participants
- Assist when you can – flexible hours determined by your availability

PETEX has a global reputation for excellence in training. Backed by the solid reputation of The University of Texas at Austin, PETEX is uniquely qualified to support the industry with quality one-stop training solutions. Join our winning team by lending your expertise.

Note: A large number of the training courses are held at either the Houston or West Texas Training Centers or at client sites. PETEX holds courses globally for those interested in traveling. Publications assistance can be done remotely. Many companies agree to offer employees' time as a community service.

If you are interested in assisting with publications or becoming a training instructor, please call:
