Dear Dr. Stafford:

You received a letter from our office dated March 15, 2007, requesting approval for a change in degree requirements for all undergraduate students at the University of Texas at Austin.

We are enclosing an amendment dated March 20, 2007, which recommends approval to the proposal that would change the natural science requirement for the undergraduate core curriculum.

We ask for your approval so that UT Austin may begin the process of implementing the new core in individual degree plans.

Sincerely,

Pedro Reyes  
 Associate Vice Chancellor for Academic Planning & Assessment
