Dr. Steven Leslie
Executive Vice Chancellor for Academic Affairs
The University of Texas System
OHH 304 (P4300)

Dear Dr. Leslie:

Enclosed for your approval is the proposal to delete the Bachelor of Arts majors in biochemistry, biology, and human ecology in the College of Natural Sciences chapter of the Undergraduate Catalog 2016-2018 (D 13478-13483). The proposal was classified as being of general interest to more than one college or school and was approved by the Faculty Council on November 11, 2015. The authority to grant final approval on this change resides with Texas Higher Education Coordinating Board.

Sincerely,

[Signature]

Judith H. Langlois
Executive Vice President and Provost, ad interim

Judith H. Langlois
Interim Executive Vice President and Provost
The University of Texas at Austin
MAI 201
Campus Mail Code: G1000

Dear Dr. Langlois:

Enclosed for your consideration and action is a proposal delete the Bachelor of Arts majors in biochemistry, biology, and human ecology (D 13478-13483) in the College of Natural Sciences chapter in the Undergraduate Catalog, 2016-2018. The proposal was classified as being of general interest to more than one college or school and was approved by the Faculty Council on a no-protest basis on November 11, 2015. The authority to grant final approval resides with UT System with formal notification to the Texas Higher Education Coordinating Board.

Please let me know if you have questions or if I can provide other information concerning these items.

Sincerely,

Hillary Hart, Secretary
General Faculty and Faculty Council

DOCUMENTS OF THE GENERAL FACULTY

PROPOSED DELETION OF THE BACHELOR OF ARTS MAJORS IN BIOCHEMISTRY, BIOLOGY, AND HUMAN ECOLOGY IN THE COLLEGE OF NATURAL SCIENCES CHAPTER IN THE UNDERGRADUATE CATALOG, 2016-2018

Dean Linda Hicke, in the College of Natural Sciences has filed with the secretary of the Faculty Council the following proposal to delete the Bachelor of Arts majors in biochemistry, biology, and human ecology from the Undergraduate Catalog, 2016-2018. On March 26, April 6, and March 12, the Departments of Biochemistry, Biology and the School of Human Ecology approved the proposal, respectively. On September 28, 2015, Associate Dean David Vanden Bout approved it on behalf of the college and the dean. The secretary has classified this proposal as legislation of general interest to more than one college or school.

The Committee on Undergraduate Degree Program Review recommended approval of the changes on October 22, 2015, and forwarded them to the Office of the General Faculty. The Faculty Council has the authority to approve this legislation on behalf of the General Faculty. The authority to grant final approval on this legislation resides with the Texas Higher Education Coordinating Board.

If no objection is filed with the Office of the General Faculty by the date specified below, the legislation will be held to have been approved by the Faculty Council. If an objection is filed within the prescribed period, the legislation will be presented to the Faculty Council at its next meeting. The objection, with reasons, must be signed by a member of the Faculty Council.

To be counted, a protest must be received in the Office of the General Faculty by November 11, 2015.

Hillary Hart, Secretary
General Faculty and Faculty Council

PROPOSED DELETION OF THE BACHELOR OF ARTS MAJORS IN BIOCHEMISTRY, BIOLOGY, AND HUMAN ECOLOGY IN THE COLLEGE OF NATURAL SCIENCES CHAPTER IN THE UNDERGRADUATE CATALOG, 2016-2018

Type of Change  □ Academic Change  □ Degree Program Change (THECB form required)

Proposed classification  □ Exclusive   □ General   □ Major

1. IF THE ANSWER TO ANY OF THE FOLLOWING QUESTIONS IS YES, THE COLLEGE MUST CONSULT LINDA DICKENS, DIRECTOR OF ACCREDITATION AND ASSESSMENT, TO DETERMINE IF SACS-COC APPROVAL IS REQUIRED.
   - Is this a new degree program?  Yes □ No □
   - Does the program offer courses that will be taught off campus?  Yes □ No □
   - Will courses in this program be delivered electronically?  Yes □ No □

2. EXPLAIN CHANGE TO DEGREE PROGRAM AND GIVE A DETAILED RATIONALE FOR EACH INDIVIDUAL CHANGE:
   1) Deletion of the biochemistry major.
      Rationale: Very few students are using this degree plan and it is anticipated that most students who followed the BA in biochemistry degree plan will matriculate in the BSA biochemistry degree plan.
      Recent data support this:

      | Academic Years | BA, Biochemistry major | BSA, Biochemistry major | BS in Biochemistry |
      |----------------|------------------------|-------------------------|--------------------|
      |                | Enrolled    | Degrees Awarded | Enrolled (beginning Fall 2014) | Degrees Awarded (beginning Fall 2014) | Enrolled | Degrees Awarded |
      | 2010 through 2011 | 17         | 17              | N/A                   | N/A                  | 344      | 136               |
      | 2011 through 2012 | 13         | 10              | N/A                   | N/A                  | 420      | 134               |
      | 2012 through 2013 | 12         | 11              | N/A                   | N/A                  | 442      | 123               |
      | 2013 through 2014 | 12         | 13              | N/A                   | N/A                  | 485      | 160               |
      | 2014 through 2015 (includes spring candidates) | 7         | 6               | 295                   | 19                   | 306      | 114               |

      For students claiming the 2014-16 catalog, the BA degree with a major in biochemistry will be available through August 2022. The courses in biochemistry, biology, and chemistry taken for the BA Biochemistry major are also required for the BS and BSA degrees in the same fields of study, ensuring that course availability will not be an issue.

   2) Deletion of the biology major.

      | Academic Year | BA BIO enrollment | BA BIO degrees awarded | BSA BIO enrollment (beginning Fall 2014) | BSA BIO degrees awarded (beginning Fall 2014) |
      |--------------|-------------------|------------------------|------------------------------------------|---------------------------------------------|
      | 2010 through 2011 | 1262            | 197                    | N/A                                      | N/A                                         |
      | 2011 through 2012 | 1075            | 171                    | N/A                                      | N/A                                         |
      | 2012 through 2013 | 944             | 156                    | N/A                                      | N/A                                         |
      | 2013 through 2014 | 1031            | 153                    | N/A                                      | N/A                                         |
      | 2014 through 2015 (includes summer candidates) | 326             | 102                    | 1197                                    | 142                                         |
Rationale: The Biology Instructional Office and the Departments of Integrative Biology, Marine Science, Molecular Biosciences, and Neuroscience, propose deletion of the Biology (BIO) major on the Bachelor of Arts, Plan I (BA) degree due to decreasing enrollments.

For students claiming the 2014-16 catalog, the degree will be available until August 2022. The courses in this major are offered by the College of Natural Sciences and will continue to be offered. The deletion of the biology major in the BA degree will have minimal impact on students and course offerings due to the alternative of the BSA with a major in biology.

3) Deletion of the human ecology major:
The School of Human Ecology proposes deletion of the human ecology (HE) major on the Bachelor of Arts, Plan I, (BA) degree due to underperformance in degrees awarded. Very few students earn this degree, and number of majors are steadily dropping. In addition, there are enrollment indications that the small number of students interested in a generalized course of study are now choosing the BSA HE major.

<table>

For students claiming the 2014-16 catalog, the degree will be available until August 2022. All of the courses in the BA human ecology major are offered by the College of Natural Sciences save for up to four hours that may be completed in the Jackson School of Geosciences. The courses in human development and family sciences, nutrition, and textiles and apparel taken for the BA major are also required for the BS degrees in the same fields of study, ensuring that course availability will not be an issue. There may be a very small net decrease in enrollments in a few of the required courses. Decreased enrollments of one or two seats per semester will not impact course offerings. In summary, the deletion of the human ecology major in the BA degree will have little to no impact on students and course offerings.

3. THIS PROPOSAL INVOLVES (Please check all that apply)
   - [ ] Courses in other colleges
   - [ ] Courses in proposer’s college that are frequently taken by students in other colleges
   - [ ] Course in the core curriculum
   - [ ] Change in course sequencing for an existing program
   - [ ] Requirements not explicit in the catalog language (e.g., lists of acceptable courses maintained by department office)
   - [ ] Courses that have to be added to the inventory
   - [ ] Deletion of Biochemistry, Biology, and Human Ecology majors

4. SCOPE OF PROPOSED CHANGE
   a. Does this proposal impact other colleges/schools? Yes ☑ No □
      If yes, then how? BA HE majors must complete between two to four hours from a variety of science fields of study, including Geological Sciences.
   b. Do you anticipate a net change in the number of students in your college? Yes ☑ No □
      If yes, how many more (or fewer) students do you expect?
   c. Do you anticipate a net increase (or decrease) in the number of students from outside of your college taking classes in your college? Yes ☑ No □
      If yes, please indicate the number of students and/or class seats involved.
   d. Do you anticipate a net increase (or decrease) in the number of students from your college taking courses in other colleges? Yes ☑ No □
If yes, please indicate the number of students and/or class seats involved. There may be a decrease of one seat per academic year in GEO 401.

If 4 a, b, c, or d was answered with yes, please answer the following questions. If the proposal has potential budgetary impacts for another college/school, such as requiring new sections or a non-negligible increase in the number of seats offered, at least one contact must be at the college-level.

How many students do you expect to be impacted?

Impacted schools must be contacted and their response(s) included:

Person communicated with:

Date of communication:

Response:

e. Does this proposal involve changes to the core curriculum or other basic education requirements (42-hour core, signature courses, flags)? No. If yes, explain:

If yes, undergraduate studies must be informed of the proposed changes and their response included:

Person communicated with:

Date of communication:

Response:

f. Will this proposal change the number of hours required for degree completion? No. If yes, explain:

5. COLLEGE/SCHOOL APPROVAL PROCESS

Department approval date: Biochemistry: March 26, 2015
Biology: April 6, 2015
Human Ecology: March 12, 2015

College approval date: Biochemistry: March 25, 2015
Biology: May 27, 2015
Human Ecology: March 25, 2015

Dean approval date: September 28, 2015, David Vanden Bout, Associate Dean

PROPOSED NEW CATALOG TEXT:

{Biochemistry}

[In addition to the requirements below, biochemistry majors must take either: Mathematics 408C and 408D or Mathematics 408N, 408S, and Statistics and Data Sciences 228M; and eight semester-hours of physics: either Physics 301, 411L, 316, and 115L; 303K, 303L, and 103N; or 317K, 317M, 317L, and 117N.]

{Major}

1. Chemistry 201 or 301H
2. Chemistry 204 or 317 Chemistry 302 or 302H
3. Chemistry 320M
4. Chemistry 352 or 353M
5. Chemistry 455
6. Biochemistry 329F
7. Biochemistry 369L
8. Two of the following courses:
   Biochemistry 329J
   Biochemistry 329M
   Biochemistry 329N
   Biochemistry 370J

{Minor}
[Either Biology 311C, 311D, and 325 or 315H and 325H; six additional semester hours in biology, three of which are chosen from Biology 326, 339, 345, 361T, Neuroscience 365R or Biology 371M, and 365S; and three additional hours chosen from the preceding list or from Biology 320, 325T, 226L and either 326M or 326R, 327D, 336, 331L, 335, 336, 335M, 344, 346, 347, 340, 360K, 361, 377 and Neuroscience 365W.]

[Students must earn a grade of at least C in each mathematics and science course required for the degree, and a grade-point average in these courses of at least 2.00.]

[Additionally, students must complete the following coursework with a grade of at least C in each course:
1. Mathematics 408N or the equivalent;
2. Statistics and Data Science 205, 303, 304, 305, 306, or 325H;
3. Please complete one of these sequences:
   1. Chemistry 301 or 301H, 302 or 302H, and Biology 311G, or
   2. Chemistry 301 or 301H and Biology 311C and 311D;
4. two to four additional hours in astronomy, biology, chemistry, computer science, geological sciences, mathematics, and/or physics. Courses designed for non-science majors may not be counted toward this requirement. This coursework also meets the core curriculum mathematics and science and technology requirements.]

[Students must earn a grade of at least C in each mathematics and science course required for the degree, and a University grade-point average in these courses of at least 2.00.
To develop a meaningful and coherent degree program, the student should select courses with the assistance of faculty and academic advisers.]
