

Software Assurance E-Learning

Official Microsoft E-Learning courses are designed to provide maximum learning in minimal time. These courses, available to Software Assurance customers on the Microsoft E-Learning Online site, offer a visually engaging, guided learning experience with highly interactive features, including user-selected learning style, assessments, rich simulations, hands-on labs for practice, audio, and multimedia. Software Assurance features three unique e-learning benefits, Systems, Applications, and Server. This document provides an overview of the e-learning courses that are available through each of these benefits.
