

***Investing in Texas: Financing Health Coverage Expansion  
Conference Proceedings***

**Acknowledgements**

The background papers that led to the presentations at this conference benefited from the assistance of a number of observers, experts and interested persons who are cited in the appropriate papers. These papers can be found at the website for the project at <http://www.insuretexans.org>. The project also benefited from presentations by experts and stakeholders who came to class and presented their perspectives. Those who presented included:

- Edli Colberg, Demographer/Program Specialist, Research, Planning and Evaluations, Texas Health and Human Services Commission.
- Anne Dunkelberg, Senior Analyst, Center for Public Policy Priorities.
- Caton Fenz, Aide to Representative Garnet Coleman.
- DeAnn Friedholm, Executive Director, Children's Defense Fund of Texas.
- Dianne Longley, Director of the State Planning Grant on the Uninsured at the Texas Department of Insurance.
- Jose Marrero, JAM Creative.
- Christopher Sharman, Sherry Mathews Advertising—SCHIP outreach and public relations.

Many of the detailed arrangements of the conference were ably managed by the staff of the LBJ School, Office of Conferences and Training, including Jane Hackley, director of the office, Carol Monette, and Nancy Mohn.

Similarly, our faculty assistants Camille Hossner, Debra Moore, and Sharon Tutchings have performed above and beyond the call of duty on the conference, the policy research project, related research, and organizing many meetings. Lauren Jahnke ably edited and prepared these proceedings for publication.

Although the conference and proceedings represent the hard work of all the participants in the project, special recognition should go to Jamie Dudensing, Laura Garcia, and Sarah Stout, who were the Conference Organizing Committee.

We give special acknowledgement to the Foundation for Insurance Regulatory Studies in Texas (FIRST) for the financing provided over the two years of this research project.

Funding was also provided by the Wilbur Cohen Professorship and the Sid Richardson Chair.
