The six-year time period equals 18 consecutive semesters (3 semesters per year.) A student has 18 consecutive semesters to graduate (including summer semesters,) starting with the first semester enrolled, regardless of whether or not the student is registered for every semester.

The following illustrates how the first line of the above chart is calculated:

1st semester = 056 (summer 2005)

18th semester = 112 (spring 2011)

056	059	062	066	069	072	076	079	082	086	089	092	096	099	102	106	109	112
-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----	-----

18 semesters = 6 years

Year 1 = 056 to 062

Year 2 = 066 to 072

Year 3 = 076 to 082

Year 4 = 086 to 092

Year 5 = 096 to 102

Year 6 = 106 to 112
