

**SECTION 09640– WOOD FLOORING
CONSTRUCTION STANDARD**

PART 1: GENERAL

1.01 Scope of Standard

- A. This standard provides general guidance concerning the specific preferences of the University of Texas at Austin for spring supported wood flooring, steel channel wood flooring, steel spliced wood flooring, acrylic impregnated parquet flooring, and vinyl bonded wood flooring.
- B. UT recognizes that project conditions and requirements vary, thus precluding the absolute adherence to the items identified herein in all cases. However, unless there is adequate written justification, it is expected that these guidelines will govern the design and specifications for UT projects.
- C. Type to be used shall be approved by the UT project representative.
