

**SECTION 06100– ROUGH CARPENTRY
CONSTRUCTION STANDARD**

PART 1: GENERAL

1.01 Scope of Standard

- A. This standard provides general guidance concerning the specific preferences of the University of Texas at Austin for wood foundations; framing, sheathing, and decking using timber, lumber, and engineered wood products. Blocking and supports to join members and anchor framework to other construction.
- B. UT recognizes that project conditions and requirements vary, thus precluding the absolute adherence to the items identified herein in all cases. However, unless there is adequate written justification, it is expected that these guidelines will govern the design and specifications for UT projects.

1.02 Quality Control

- A. All older campus building should be thoroughly checked for termites and other insect infestations, and specifications should address treatment measures required if termites are found during renovation.

PART 2: PRODUCTS

2.01 General

- A. Contractor shall provide UL label for fire retardant material.
- B. Contractor shall provide certification for preservative treated material.
- C. Lumber shall be kiln dried, bearing stamp of Southern Pine Inspection Bureau or equivalent agency.
- D. Fire retardant treated lumber shall bear UL label.

PART 3: EXECUTION NOT USED
