## Transfer Credit Evaluations for 2011-2012 Austin Community College Courses

UT Austin transfer evaluations for Austin Community College courses are listed below, organized by A.C.C. prefix. Evaluations are certified for courses taken in the 2011-2012 academic year. Courses taken in prior years may transfer differently and can be found at <http://www.utexas.edu/student/admissions/ate/>.

A.C.C. course numbers have four-letter prefixes and the second digit denotes semester hour value. A.C.C. retains some older numbers with three-letter prefixes, in which the fourth digit denotes credit value. Some disciplines use both numbering systems (e.g. *PSYC* and *PSY* for Psychology).

Some evaluations are modified UT course numbers with first digits different than listed in the UT catalog, to accommodate different semester hour values at A.C.C. Transfer credit with semester hour values less than normally awarded at UT substitutes for the UT course of higher value at the discretion of the student's academic dean's office.

Retired UT courses may be used in transfer evaluations; such credit still applies toward current degree requirements.

Evaluations with no specific UT course number (e.g. *ART 3 hrs*) represent generic transfer credit hours in a subject.

Some natural science courses transfer as generic credit. *FLAB* or *SLAB* denotes freshman or sophomore combined lecture/laboratory credit; *FRMN* or *SOPH*, freshman or sophomore lecture credit; and *LAB*, lower-division laboratory credit.

Transfer credit recommendations for specific UT degree programs are provided in the ACC/UT Transfer Guides, available online at <http://www.utexas.edu/office/admissions/acc/>.

### Academic Courses

Designed to parallel the first two years of university study and intended for transfer into bachelor degree programs, except for developmental coursework (DEVR, DEVW, DSSK, ESOL, HUDE, MATD, and any course number with zero as the first digit).

## Workforce Courses

Vocational/technical coursework designed to provide workplace skills, generally not transferable into university programs.

Selected courses transfer because their content is sufficiently similar to topics offered in a UT Austin academic department. Degree and prerequisite applicability of such transfer credit is at the discretion of the student's UT academic dean's office and academic departments, respectively.
