¹ **Defining “Enrolled Student”**

In this study an enrolled student is one who enrolled in classes during the fall semester or enrolled during the summer and re-enrolled in the fall. This is the Integrated Postsecondary Education Data System (IPEDS) definition of entering freshman.

Defining “School”

Datasets were configured from information provided by the Texas Education Agency (TEA), the Research Division of the Texas Legislative Council (TLC), and the UT Office of Admissions. TEA's AI code and campus names were cross-checked with UT's school database. In this study, a school is defined as:

1. a secondary educational institution that has an AI code in the TEA dataset; or
2. a secondary educational institution that has been assigned a temporary code by UT Austin; and
3. the state in the school's mailing address is Texas.

TEA data included only public schools. Schools not on the TEA datasets, but in the UT database were considered non-public schools. In order to be counted these schools had to have a College Board code or temporarily assigned UT school code, and Texas as a mailing address.

At UT Austin, home schooled applicants are assigned code 1077023. There is no standard condition that defines a home school experience: some home schooled applicants are educated at home only; some are educated at home and at the homes of others in the form of an association; some are educated at home and may take special courses (like AP) at high school campuses during part of the day. Thus, the code 1077023 was not counted as a school. However, home school associations and charter schools, regardless of condition or affiliation, are counted as a school if the conditions described above for non-public schools are met.
