RECYCLE RIGHT AT DHFS

Recycling in the residence halls and DHFS dining areas is easy, convenient and good for the environment! Over 160 tons of material were recycled from DHFS buildings during the 2011-12 academic year. Let’s see if we can do even better in 2012-13!

How Do I Recycle?
You will find a blue recycle bin in your room to collect paper, cardboard, paperboard, plastic containers #1-7, aluminum and steel. Please rinse all food and drink containers before you recycle them.

What Doesn’t Belong?
Items that cannot be recycled at DHFS include plastic bags, glass, greasy pizza boxes, styrofoam, napkins, paper towels and Kleenex.

Please take your recyclables to the designated collection areas in your residence hall and make sure not to contaminate the bins with trash or other non-recyclable items. Adding these items can result in the entire bag going to the landfill.
