

APPENDIX C: CONCORDANCE OF ETRUSCAN INSCRIPTIONS

[Note from the Editors of *The Religion of the Etruscans*: The concordance that follows was omitted from the published book through an editorial decision aimed at avoiding delay in publication. It is here presented in an PDF version that readers may themselves print and append to the work.]

The inscriptions listed below are referenced by their numbers in H. Rix, *Etruskische Texte*, Tübingen, 1991, followed by the pages of *The Religion of the Etruscans* where each inscription appears. The inscription numbers are given in the order in which they appear in *ET*; from the citations in *ET* the reader can locate the corresponding numbers in *Thesaurus Linguae Latinae*.

Additional references to these inscriptions and to those not listed in *ET* may be found through names and key words cited in the Index.
